

Question 21 of 307

DRAG DROP -

You need to configure security for Dynamics 365 Business Central objects.

Which permission or set of permissions is allowed for each type of object? To answer, drag the appropriate permissions to the correct object types. Each permission set may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Answer Area

Permissions	Object type	Permission
	Table	
Read, Insert, Modify, and Delete	Page	
Execute	Table data	
	System	

Suggested answer

Answer Area

Permissions	Object type	Permission
	Table	Execute
Read, Insert, Modify, and Delete	Page	Execute
Execute	Table data	Read, Insert, Modify, and Delete
	System	Execute

Question 22 of 307

HOTSPOT -

You are implementing Dynamics 365 Business Central.

The accounting manager wants to set up a complete Purchase Document Approval system with an approval hierarchy that meets the following requirements:

- Sara processes all purchase orders. Any purchase orders that Sara processes must be approved.
- Michelle can approve purchase orders up to \$10,000.
- Shawn can approve the orders up to \$50,000.
- Purchase orders above \$50,000 must be approved by Remy.

You need to create the hierarchy.

Which hierarchy setup should be used for each limit? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Limit	Hierarchy setup
Unlimited	Remy as Approval user with no approver Remy as Approval user with Shawn as approver Shawn as Approval user with Michelle as approver Michelle as Approval user with Shawn as approver
Purchase orders up to \$50,000	Remy as Approval user with no approver Remy as Approval user with Shawn as approver Shawn as Approval user with Remy as approver Shawn as Approval user with no approver
Purchase orders up to \$10,000	Michelle as Approval user with no approver Michelle as Approval user with Shawn as approver Shawn as Approval user with Remy as approver Sara as Approval user with no approver
Everything must be approved	Sara as Approval user with no approver Sara as Approval user with Michelle as approver Michelle as Approval user with Shawn as approver Michelle as Approval user with Remy as approver

Question 23 of 307

You are implementing Dynamics 365 Business Central Online for a company. The company is migrating from a previous version of Business Central.

The company wants to migrate historical financial information from the previous fiscal year into the new database, including all analytical information.

You need to migrate data, including analytical information, by using a configuration package.

Which three steps should you use? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

Answer choices

A Create a configuration package. Then select the appropriate table.

B Export the table from the configuration package to Microsoft Excel. Adjust the file to include dimension information. Import the updated Excel table.

C Select the Dimensions as Columns field. Include all the dimension fields in the configuration package.

D Export the configuration package.

E Assign a data template to the configuration package.

Correct answer is ABC

Question 24 of 307

You are configuring Dynamics 365 Business Central. You have a file containing balances for all general ledger accounts as of December 31, 2018.

You import the data into a General Journal batch. You enable the Force Doc. Balance option for the template.

When you attempt to post the batch, the following error message displays:

Out of balance -

You need to resolve the error.

Which three actions should you perform? Each correct answer presents a part of the solution.

NOTE: Each correct selection is worth one point.

Answer choices

- A Ensure that the set of journal entry lines balance by posting date.
- B Ensure that the set of journal entry lines balance by gen. posting type.
- C Ensure that the set of journal entry lines balance by amount.
- D Ensure that the set of journal entry lines balance by document no.
- E Ensure that the set of journal entry lines balance by dimension set ID.

Correct answer is ACD

To resolve the 'Out of balance' error when posting a General Journal batch in Dynamics 365 Business Central, you need to ensure that the journal entry lines are balanced by specific criteria. First, you must ensure that the lines balance by posting date (A) because entries must be balanced for the same period. Next, balancing by amount (C) is essential to ensure that total debits and credits are equal. Finally, balancing by document number (D) is important to maintain the integrity of the documentation, as each document should individually balance. These steps ensure the data integrity and accuracy required for successful posting.

Question 25 of 307

DRAG DROP -

The company uses Dynamics 365 Business Central. You create several dimensions that will be used to perform cost analyses.

Some dimension value combinations are not allowed when posting purchase transactions.

You need to set up dimension combinations.

In which order should you perform the actions? To answer, move all the actions from the .list of actions and arrange them in the correct order.

Select and Place:

Actions

Answer Area

Open the Dimensions Combinations page.

Select the dimensions combination and set the option to Limited.

Open the Dimension Value Combinations page.

Select the dimension value combinations and set the option to Blocked.

Actions

Answer Area

Open the Dimensions Combinations page.

Select the dimensions combination and set the option to Limited.

Open the Dimension Value Combinations page.

Select the dimension value combinations and set the option to Blocked.

Question 26 of 307

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are configuring default reports and layouts in Dynamics 365 Business Central.

You must add new data items to the report and change the layout associated with the default Purchase Order report.

A developer creates and deploys a new report object that includes the new data items and layout.

You need to configure Business Central to use the new report object as the system default when printing purchase orders.

Solution: On the Report Selection ` " Service page, set the value of the Usage option to Order. Update the Report ID shown on the page to reflect the new report object.

Does the solution meet the goal?

Answer choices

A Yes

B No

Correct answer: B

To configure a new report object as the system default for printing purchase orders in Dynamics 365 Business Central, you should use the 'Report Selection - Purchase' page, not the 'Report Selection - Service' page. The 'Report Selection - Purchase' page is specifically designed for managing reports related to purchasing, including purchase orders. Setting the values on the 'Report Selection - Service' page will not affect the purchase orders, thus the proposed solution does not meet the goal.

Question 27 of 307

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are configuring default reports and layouts in Dynamics 365 Business Central.

You must add new data items to the report and change the layout associated with the default Purchase Order report.

A developer creates and deploys a new report object that includes the new data items and layout.

You need to configure Business Central to use the new report object as the system default when printing purchase orders.

Solution: On the Report Selection ` " Purchase page, set the value of the Usage option to Order. Update the Report ID shown on the page to reflect the new report object.

Does the solution meet the goal?

Answer choices

A Yes

B No

Correct answer: A

To configure Business Central to use a new report object as the system default when printing purchase orders, you need to set the value of the Usage option to Order on the Report Selection Purchase page and update the Report ID to reflect the new report object. This process correctly updates the system to use the new report as the default for purchase orders.

Question 28 of 307

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are configuring default reports and layouts in Dynamics 365 Business Central.

You must add new data items to the report and change the layout associated with the default Purchase Order report.

A developer creates and deploys a new report object that includes the new data items and layout.

You need to configure Business Central to use the new report object as the system default when printing purchase orders.

Solution: On the Custom Report Layouts page, select the new report object. Use the Update Layout function to force Business Central to use the current report design.

Does the solution meet the goal?

Answer choices

A Yes

B No

Correct answer: B

To configure Business Central to use a custom report as the system default when printing purchase orders, you need to update the Report Selections for Purchases, not just update the layout. On the Report Selections page, you need to specify the report ID of the new report object for the appropriate document type, in this case, Purchase Order. Using the Custom Report Layouts page and the Update Layout function only updates the layout for custom reports but does not set them as the default report for a specific task.

Question 29 of 307

HOTSPOT -

A company uses Dynamics 365 Business Central.

You need to create a user account for a new salesperson. The account must have the same permissions as other salespeople.

How should you configure the system? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Requirement

Add a new user.

Action

Add a user to User Setup from Dynamics 365 Business Central.
Add a user to User Settings from Dynamics 365 Business Central.
Update users from Microsoft 365.
Select New on the Users page from Dynamics 365 Business Central.

Assign user permissions.

Apply indirect permissions to a user.
Apply effective permissions to a user.
Assign user to a User Group.

Suggested answer

Box 1: Update users from Microsoft 365

To add users or update user information and license assignments in Business Central
After you add users or change user information in the Microsoft 365 Admin Center, you can quickly import the user information to Business Central. The import includes license assignments.

1. Sign in to Business Central using an administrator account.
2. Choose the Lightbulb that opens the Tell Me feature. icon, enter Users, and then choose the related link.
3. Choose Update Users from Microsoft 365.

For new users, the next step is to assign user groups and permissions.

Box 2: Assign user to a User group.

Question 30 of 307

HOTSPOT -

A company uses Dynamics 365 Business Central.

You need to customize sales invoice printouts to meet the following requirements:

- Display the customer city and then the postal code.
- Display the company logo to the right of the customer address information.

Where should you make the configuration change? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Requirement

Display the customer city and then the postal code.

Display the company logo to the right of the customer address information.

Location

Location Code in Company Information page
Local Address Format in General Ledger Setup page
Local Cont. Addr. Format in General Ledger Setup page
Require County/Region Code in Address in General Ledger Setup page

Company Information page
General Ledger Setup page
Sales & Receivables Setup page
Purchases & Payables Setup page

Box 1: Local Address Format in General Ledger Setup page

Local Address Format: Here you can specify the format in which addresses must appear on printouts. ie, Post Code+City, City+Post Code, City+County+Post Code, Blank Line+Post Code+City,formats.

Note: The General Ledger Setup page specifies how you handle many different accounting issues in your company. For example, you use this page to specify invoice rounding details, the currency code for your local currency, address formats, and whether you want to use an additional reporting currency.

Box 2: Company information page -

Company Logo in Business Central

Enter Company Information in Tell me, and then choose the related link.

Then you can find a setting of the Company Logo on the Company Information page.

Picture: Specifies the picture that has been set up for the company, such as a company logo.

Question 31 of 307

DRAG DROP -

A company uses Dynamics 365 Business Central. You assign a purchasing profile to all users in the purchasing department.

A user moves from the purchasing department to another department.

You need to remove all personalizations in the user's profile.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions		Answer area
Select the line for the page personalization that you want to delete and then select the Delete action.		
Select User Settings and then select the related link.		
Navigate to the User Page Personalizations page.	>	⬆
Open the User Settings card.	<	⬇
Select Clear Personalized Pages.		

Suggested answer

Step 1: Select User Settings and the select the related link.

Select the line for the profile that you want to change user settings for, and then choose the User Personalizations List action.

Step 2: Navigate to the User Page Personalization page

You can delete user personalization from "user personalization" card, using the Clear personalized Pages Action.

Step 3: Select Clear Personalized Pages

Actions		Answer area
Select the line for the page personalization that you want to delete and then select the Delete action.		Select User Settings and then select the related link.
		Navigate to the User Page Personalizations page.
	>	Select Clear Personalized Pages.
Open the User Settings card.	<	

Question 32 of 307

HOTSPOT -

A company creates blanket purchase orders from inbound documents that are sent to Dynamics 365 Business Central by purchasing agents.

When a new blanket purchase order is created with a certain item, the system must send a procurement supervisor a request to approve the purchase order.

Purchase orders must not be posted until the procurement supervisor approves the purchase order.

You need to configure the system. To answer, select the appropriate options in the answer area

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Requirement	Solution component				
Lock the record for newly created blanket purchase orders with the specific item.	<table><tr><td>Incoming Documents</td></tr><tr><td>Power Automate flows</td></tr><tr><td>Security filters</td></tr><tr><td>Business Central workflows</td></tr></table>	Incoming Documents	Power Automate flows	Security filters	Business Central workflows
Incoming Documents					
Power Automate flows					
Security filters					
Business Central workflows					
Assign the security command that tells the system to lock the purchase order.	<table><tr><td>When Event</td></tr><tr><td>Then Response</td></tr><tr><td>On Condition</td></tr><tr><td>Trigger</td></tr></table>	When Event	Then Response	On Condition	Trigger
When Event					
Then Response					
On Condition					
Trigger					
Assign the items that the system will want to use to trigger the locking of the purchase order.	<table><tr><td>When Event</td></tr><tr><td>Then Response</td></tr><tr><td>On Condition</td></tr><tr><td>Trigger</td></tr></table>	When Event	Then Response	On Condition	Trigger
When Event					
Then Response					
On Condition					
Trigger					

Suggested answer

Box 1: Business Central workflows

Change management introduces a managed workflow that makes sure that purchase orders are locked when they have been approved. The purchase orders cannot be changed until you start the change request workflow.

Note: A workflow represents a business process. It defines how a document flows through the system and indicates who must complete a task or approve a document.

Box 2: Then Response -

Box 3: When Event -

The workflow is divided into three sections:

1. When Event This is where the trigger is selected. Examples of trigger could be:

A master data record is changed -

A journal line is created -

an Incoming document is created or released

Approval of a document is requested

2. On Condition of - The conditions are related to the event and opens for creating filters for when the event is triggered

3. Then Response - The Responses responds to what the next step in the work are.

Question 33 of 307

DRAG DROP -

A company is implementing Dynamics 365 Business Central.

You need to create posting details for the master data.

Which setting should you use? To answer, drag the appropriate settings to the correct requirements. Each setting may be used once, more than once, or not at all.

You may need to drag the split bar between panes or scroll to view content.

Settings	Requirement	Setting
G/L Account	Item	General Prod. Posting Group
General Prod. Posting Group	Vendor	General Bus. Posting Group
General Bus. Posting Group	Customer	General Prod. Posting Group

Suggested answer

Box 1: General Prod. Posting Groups

General Product Posting Groups: Assign this group to items and resources to specify what you sell, and what you buy.

Box 2: General Bus. Posting Group

General Business Posting Groups: Assign this group to customers and vendors to specify who you sell to, and who you buy from.

Box 3: General Bus. Posting Group

General Business Posting Groups: Assign this group to customers and vendors to specify who you sell to, and who you buy from.

Question 34 of 307

DRAG DROP

-

A company uses Dynamics 365 Business Central. You grant the financial bookkeeper the D365 ACCOUNTANTS permission set.

An auditor plans to perform an annual accounting audit. The auditor must have access to the same data as the bookkeeper but with view-only permission.

You need to create the permission set for the auditor.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions		Answer area
On the User Groups page select the D365 ACCOUNTANTS code.		
Edit the permissions for Permission Set AUDIT.		
Assign a New Permission Set name to AUDIT.	>	^
On the Permission Sets page select the D365 ACCOUNTANTS permission set.	<	v
Set the Insert, Modify, and Delete permissions to No for all permission lines.		
Use the Copy Permission Sets function.		

Answer area

On the User Groups page select the D365 ACCOUNTANTS code.
On the Permission Sets page select the D365 ACCOUNTANTS permission set.
Use the Copy Permission Sets function.
Assign a New Permission Set name to AUDIT.
Edit the permissions for Permission Set AUDIT.
Set the Insert, Modify, and Delete permissions to No for all permission lines.

Question 35 of 307

HOTSPOT

A company uses Dynamics 365 Business Central. There are three departments (ADM, PROD and SALES) that are set up as dimensions.

A customer wants to speed up the purchase invoice entry process for building materials by having the AP clerks fill purchase invoices without using dimensions. Monthly building expenses can vary between \$5,000-\$7,000 per month. The allocation of building expenses is as follows:

Department	Allocation
PROD	50 percent
SALES	25 percent
ADM	25 percent

Allocation of the monthly building expense between dimensions is required at the end of each month.

You need to configure the system to automatically allocate building expense total balances each month between dimensions.

How should you configure recurring general journals? To answer, select the appropriate options in the answer area.

Answer Area

Requirement	Solution component
Select recurring method	F Fixed V Variable RF Reversing Fixed BD Balance by Dimension
Set up recurring frequency	1M 1D CM-1D 1D+1M-1D

Question 36 of 307

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are configuring default reports and layouts in Dynamics 365 Business Central.

You must add new data items to the report and change the layout associated with the default Purchase Order report.

A developer creates and deploys a new report object that includes the new data items and layout.

You need to configure Business Central to use the new report object as the system default when printing purchase orders.

Solution: On the Report Layout Selection page, select the new report object. Update the value to Custom Layout and select the updated layout.

Does the solution meet the goal?

Answer choices

A Yes

B No

Correct answer: B

To set a custom report as the default for printing purchase orders in Dynamics 365 Business Central, it is necessary to update the Report Selections for Purchase Orders, not just the Report Layout Selection. Updating the Report Layout Selection page only changes the layout of the report, but it doesn't set the custom report as the default report for the Purchase Orders. Therefore, the suggested solution does not meet the goal.

Question 37 of 307

DRAG DROP

You are implementing Dynamics 365 Business Central for a client.

You need to ensure that the user interface (UI) meets the client's requirements.

Which approach should you use? To answer, drag the appropriate approaches to the correct requirements. Each approach may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Approaches		Answer Area
Personalize		Requirement
Customize	•	Ensure that UI changes made are applicable only at the user level.
Design	•	UI changes must apply to all users in the environment and any extensions produced by the user.
	•	UI changes must apply only to the Role Center to which they are specified.
		Approach

Suggested answer

Answer Area	
Requirement	Approach
Ensure that UI changes made are applicable only at the user level.	Personalize
UI changes must apply to all users in the environment and any extensions produced by the user.	Design
UI changes must apply only to the Role Center to which they are specified.	Customize

Question 38 of 307

DRAG DROP

A company uses Dynamics 365 Business Central. The company has two finance managers.

You need to configure approval workflow for purchase orders. Only one manager is required to approve a purchase order.

How should you complete the configuration? To answer, drag the pages to the correct requirements. Each page may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Pages		Answer Area
Workflow		
Workflow User Group	•	Requirement
Workflow Category	•	Create and enable a purchase order approval workflow.
Approval User Setup	•	Set up the relevant sequence for the approval managers.
	•	Enable parallel approval for two managers.
		Page

Suggested answer

Answer Area		Page
Requirement		
Create and enable a purchase order approval workflow.		Workflow
Set up the relevant sequence for the approval managers.		Approval User Setup
Enable parallel approval for two managers.		Workflow User Group

Question 39

DRAG DROP

A company uses Dynamics 365 Business Central. You group salespeople into teams and assign each team a Salesperson code.

A salesperson reports that they can see the sales orders for other sales team members.

You need to ensure that sales team members can only see sales orders that they create.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions		Answer area	
Select the Security Filter column in Sales Header row.		1	
Enter Salesperson/Purchase Code in User Setup.		2	
Enter the Salesperson code.	>	3	⬆
Select the field number for the Salesperson code.	<	4	⬇
Select the Permission set and select Permissions.			
Enter Sales Responsibility Center.			

Suggested answer

Answer area	
1	Select the Permission set and select Permissions.
2	Select the Security Filter column in Sales Header row.
3	Select the field number for the Salesperson code.
4	Enter the Salesperson code.

Question 40

DRAG DROP

A company uses Dynamics 365 Business Central.

The sales department requires an approval process for new products. A sales order of more than \$10,000 must be approved by the sales director.

You need to set up a sales approval workflow.

Which page should you use? To answer, drag the appropriate pages to the correct requirements. Each page may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Pages		Requirement	Page
Approval User Setup	○	Sales amount approval limit for users	
Workflow User Group	○	Sales document type for approval	
Workflow	○	Sales items in documents for approval	

Suggested answer

Answer Area

Requirement	Page
Sales amount approval limit for users	Approval User Setup
Sales document type for approval	Workflow
Sales items in documents for approval	Workflow User Group
