

Question #1 *Topic 1*

DRAG DROP -

A company adds a user to Microsoft 365.

Existing user groups do not have the required permission sets for newly added users.

You need to assign a Dynamics 365 Business Central user group and permissions to the user and the company.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Select the user from the user list.

Select **Get New Users from Microsoft 365 / Update Users from Microsoft 365**.

Create a user group.

Assign the user to the company.

Assign the user group to the user.

Assign the company to the user.

Answer area

Correct Answer:

Actions

Assign the company to the user.

Answer area

Select **Get New Users from Microsoft 365 / Update Users from Microsoft 365**.

Create a user group.

Select the user from the user list.

Assign the user group to the user.

Assign the user to the company.

Step 1: Select Get New Users from Microsoft 365/ Update Users from Microsoft 365
After you add users or change user information in the Microsoft 365 Admin Center, you can quickly import the user information to Business Central.

Sign in to Business Central using an administrator account.

Choose the Lightbulb that opens the Tell Me feature. icon, enter Users, and then choose the related link.

Choose Update Users from Microsoft 365.

Step 2: Create a user group.

When you create users in Business Central you can assign specific permissions to them through permission sets and organize users in user groups. User groups make it easier to manage permissions for multiple users at the same time.

Step 3: Select the user from the user list.

Step 4: Assign the user group to the user.

In Business Central you can add users to user groups. This makes it easier to assign the same permission sets to multiple users.

Step 5: Assign the company to the user.

We add the user to the Company role.

Note: After you create users, you must assign security roles for them to use. In the Manage User Roles dialog box, select the security role or roles you want for the user or users, and then choose OK.

Question #2 *Topic 1*

A company uses Dynamics 365 Business Central.

When users create sales documents, the system must display an alert that shows the customer's remaining credit. The alert must also notify the user if the customer has any overdue payments.

You need to configure a credit limit and overdue payment warning.

What should you do?

- A. Configure the Block Customer field.
- B. Configure the Late Payment Predict extension.
- C. Select Both Warnings in the Credit Warnings field.
- D. Enable the Exact Cost Reversing Mandatory field.

Correct answer C

Question #3 *Topic 1*

You configure a cloud-based printer in Dynamics 365 Business Central.
Purchase orders printed by users must automatically print to the cloud-based printer.
You need to create a setup record for the user, report, and printer combination.
On which page should you create the setup record?

- A. Printer Selections
- B. Printer Management
- C. Report Layout Selection
- D. Report Selection "Purchase
- E. Document Sending Profiles

Correct answer A

Question #4 *Topic 1*

You are implementing Dynamics 365 Business Central Online.
Users must be added to Business Central for the first time.

Create a configuration package			
Export an Excel template and populate the data			

Actions		Answer Area	
Import a populated Excel template into the sales header and lines		Export an Excel template and populate the data	
Import a populated Excel template into the package data		Create a configuration package	
Export a configuration package	>	Import a populated Excel template into the package data	^
Apply the data	<	Apply the data	v
Create a configuration package			
Export an Excel template and populate the data			

Correct Answer:

Question #6Topic 1

DRAG DROP -

You are setting up approval workflows in Dynamics 365 Business Central.

You need to configure approver limits.

Which approver limit types should you use? To answer, drag the appropriate approver limit types to the correct requirements. Each approver limit type may be used once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Approver limit types**Answer Area****Requirement**

Route approval requests to the approver defined in Approval User Setup, regardless of the amount.

Route approval requests to the approver defined in the Workflow Response, regardless of the amount.

Route approval requests to a user who can approve requests for the required amount.

Approver limit type

Correct Answer:

Approver limit types**Answer Area****Requirement**

Route approval requests to the approver defined in Approval User Setup, regardless of the amount.

Route approval requests to the approver defined in the Workflow Response, regardless of the amount.

Route approval requests to a user who can approve requests for the required amount.

Approver limit type**Question #7Topic 1**

A company uses Dynamics 365 Business Central.

The company wants to print financial statements by using a cloud-based printer.

You need to recommend the type of printer the customer should install.

Which type of printer should you recommend?

- A. Email
- B. System
- C. Client default
- D. Server default

Correct answer A

Question #8Topic 1

You create a test instance of Dynamics 365 Business Central and enter transactions for testing purposes. You create a production company instance in the same Business Central environment.

You need to copy the setup and master data from the test instance to the production instance without copying transaction data.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Use the Run Migration Now function from Cloud Migration Management
- B. Create and export a configuration package from the source company. Next, import into the destination company
- C. Use the Copy Data from Company function from the Configuration Worksheet page
- D. Use the Copy function from the Companies page

Correct answer B and C

Question #9Topic 1

DRAG DROP -

You are creating companies for multiple customers in the cloud-based version of Dynamics 365 Business Central by using the assisted setup guide.

You need to create new companies.

Which templates should you use? To answer, drag the appropriate templates to the correct requirements. Each template may be used once, more than once, or not at all.

You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Templates	Answer Area	
	Requirement	Template
Create New	Create a company that has setup data and sample data.	Template
Evaluation	Create a company that does not have setup data.	Template
Production	Create a blank company that has setup data but does not have sample data.	Template

	Templates	Answer Area	
Correct Answer:	Create New		
	Evaluation	Create a company that has setup data and sample data.	Evaluation
	Production	Create a company that does not have setup data.	Create New
		Create a blank company that has setup data but does not have sample data.	Production

Question #10 *Topic 1*
